## **Oxygen Express for Nokia phones v.1.0 Sets New Standard for Speedy Data Recovery and Multimedia Upload**

**MOSCOW, Russia. – September 8, 2005:** Oxygen Software, the expert developer of applications for cell phone data management, today announces the unveiling of its new product Oxygen Express for Nokia phones. It offers fast and reliable backup of phone data onto PC, one-click data recovery to a compatible phone and a powerful engine for multimedia upload.

Researches into human behaviour stress the connection between human adaptability to the environment and foresight. In other words, backup against future uncertainties is a natural defence mechanism. Oxygen Express v.1.0 offers you a chance to augment your adaptability to the environment. A backup copy of your cell phone content will take one click's time and it will secure you against any unlucky accident. Oxygen Express v.1.0 will see to it that the worst nightmare of any hi-tech world dweller, the loss of contacts, memos, and notes, never comes true. One more click to recover your data and off your worries go! You are back again on the bright side. The program surely stands to its name for the speed with which it backs up and recovers data.

Fast data recovery is not the only feature that distinguishes Oxygen Express for Nokia phones. With it, you can also upload multimedia files to your phone. It is just as easy as copying files between your PC folders. Fill your mobile surroundings with new colours and tunes. Add fun and spice with Java applications. Load your mobile photo sessions onto PC so that cherished memories can brighten you up in the future. Oxygen Express will make you appreciate more fully the resources of your cell phone. When you use phone to do business, Oxygen Express will become an extension to your mobile office. All the voice records and snapshots you make during the day, all the messages you sent and get, will be catalogued and stored for future reference.

“Mobile technologies got so intertwined into our everyday routine that it often feels like strong dependency,” says Nikolay Golubev, Oxygen Software PRO. “Our programs for cell phone management provide phone holders with tools to actively control the content of their phones. Metaphorically speaking, it is more like a driver that controls hardware performance and not vice versa.”

“Like our other products, Oxygen Express for Nokia phones aims at satisfying both entertainment and business needs of our users. Those who are fond of music and games will

find uploading with Oxygen Express fast and easy. Likewise, you can effectively protect yourself from data loss. Providers of customized services can purchase our Oxygen Express Service Center Edition and use it for getting profit from backup copying and personal settings restoration. They will get the advantage of speedy and easy recovery, one of the main features of Oxygen Express.”
